---

Carl,

I apologize for not getting this draft to you earlier, when you asked for it. I was still tweaking it a bit.

Please be aware that management and counsel have not reviewed this draft. Because our responses relate to work by NMED, DOE and NRC, these agencies reviewed the first draft and provided some initial comments.

I have copied everyone on your e-mail and also added Bill Hurlbut in Water. I discussed some of Ms. Head-Dylla's comments with Bill a couple of weeks ago regarding the village of Milan's community water system.

Mark

Thanks Mark ..would it make sense to combine the responses? I'd appreciate seeing a draft

Carl,

I have completed a second draft of a response letter to Ms. Head-Dylla's comments on Grants Mining District, Homestake and Bluewater which she sent me via e-mail on June 14 as a followup to the June 2013 5-Year Plan update.

I think this is a different set of comments that those Sai and others have been working on from June 27, but many of the same issues. I sent it to Sai, Chris and Ben to review yesterday.

Mark

**Subject:** Response to Ms. Head

Are we still working on responses to the 6/27 letters from the community?
